

AI Policy Readiness Checklist

For HR, IT, operations leaders and business owners.

Identify unanswered questions before adopting or refreshing an AI policy.

Organization: _____ Owner: _____ Date: _____

Mark one response per row. "Yes" means you can point to evidence, not just an intention.¹

	Yes	Not yet	Unsure
01 Ownership Is someone accountable for AI policy and tool decisions?	☐	☐	☐
02 Inventory Do we know which tools are used, for what tasks and by whom?	☐	☐	☐
03 Approval Is there a process for approving new tools and use cases?	☐	☐	☐
04 Data boundaries Are allowed and restricted inputs defined for each tool?	☐	☐	☐
05 Vendor review Have we reviewed retention, training-use and access settings?	☐	☐	☐
06 Human review Is it clear who checks AI output before it is used or shared?	☐	☐	☐
07 High-impact uses Are hiring and other consequential uses flagged for extra review?	☐	☐	☐
08 Training Do employees know the rules and where to ask questions?	☐	☐	☐
09 Incidents Can employees report a concern, with an owner to respond?	☐	☐	☐
10 Maintenance Is a review date set, with changes and decisions documented?	☐	☐	☐

Choose one next action

Priority gap / next action: _____

Responsible owner: _____ Review date: _____

Do not turn the checks into a compliance score. "Not yet" or "Unsure" is a prompt for follow-up.
